pledges to

**Adopt the Monitoring Framework of the
ASEAN Roadmap on the Elimination
of the Worst Forms of Child Labour in 2021**

Adopt the Monitoring Framework of the ASEAN Roadmap on the Elimination of the Worst Forms of Child Labour in 2021

Name:

Adopt the Monitoring Framework of the ASEAN Roadmap on the Elimination of the Worst Forms of Child Labour in 2021.

Description:

- The 26th ASEAN Labour Ministers Meeting (ALMM) adopted the ASEAN Roadmap for the Elimination of the Worst Forms of Child Labour by 2025 (ASEAN Roadmap) on 28 October 2020. The ASEAN Roadmap provides a region-wide framework of cooperation that complements the commitments and actions of ASEAN Member States (AMS) against child labour at national and global levels.
- Following the adoption of the ASEAN Roadmap, a Monitoring Framework will be adopted to guide AMS in tracking achievements and efforts of ASEAN Member States towards the elimination of the worst forms of child labour.
- The Monitoring Framework will support the commitments of ASEAN Member States in, among others, the ASEAN Roadmap, various relevant ASEAN Declarations, ILO Convention 182, and Sustainable Development Goals (SDGs) in particular target 8.7.

Implementation plan:

The Monitoring Framework includes result-based and output-based indicators of progress in addressing the worst forms of child labour in the region. Data collection will involve consultations with ASEAN Senior Labour Officials Meeting (SLOM) and ASEAN Community Statistical System (ACSS). The consolidated data will become the baseline for the ASEAN Roadmap and subsequent data collection will be done in 2025 to monitor progress in ASEAN. Technical support may be provided to ASEAN Member States as may be requested to support their capacities in providing data and information for the Monitoring Framework. Such technical support will be assisted by the International Labour Organization (ILO).

Impact:

Through the adoption of the Monitoring Framework, ASEAN Member States will be able to measure the achievements reached in line with this Roadmap and as a result of policies and measures taken at the country level.

The Monitoring Framework is expected to provide inputs to ASEAN sectoral bodies and ASEAN Member States in planning for ASEAN's efforts in post-2025 towards the elimination of child labour in line with the realization of SDG's Target 8.7 by 2030.
