**Eradicate child labour from its supply chain
by 2025**

BARRY CALLEBAUT, SWITZERLAND

Eradicate child labour from its supply chain by 2025

Name:

Striving to eradicate child labour from our supply chain by 2025

Description:

Under our sustainability strategy Forever Chocolate, we strive to eradicate child labour from our supply chain by 2025.

Implementation plan:

1. Development of a data-driven child labour identification methodology
2. Development of a standard response protocol for field staff
3. Establishment of a child labour committee for review of child labour remediation plans

Impact:

At Barry Callebaut, we will continue to make progress with our Forever Chocolate goal of eradicating child labour from our supply chain by 2025. The risk assessment will support local teams in Brazil to identify high-risk farmers and prioritise farm visits. The development of a standard response protocol for field staff will provide a consistent, clear course of action if a child labour case is identified. The establishment of a child labour committee to review and validate remediation plans will ensure that remediation interventions are tailored to the specific needs of each child.
