Dissemination of the Children's Code in the Republic of Benin to step up the fight in the agricultural sector

Dissemination of the Children's Code in the Republic of Benin to step up the fight in the agricultural sector

Name:

Dissemination of the Children's Code in the Republic of Benin to step up the fight in the agricultural sector

Description:

In its AWP, the CNP-Benin has adopted two issues in 2021: Sectoral social dialogue and the retention and recruitment of members. Sectoral dialogue will focus on the agricultural sector (sector where there are pockets of resistance on child labour). Thus, we are going to combine sectoral dialogue with awareness-raising actions on the rights of the child and the elimination of child labour. Beneficiaries are agricultural companies and units. Awareness-raising materials / Necessary labour standards / leaflets and flyers / videos and other materials on actions about the issue in Benin / the Children's Code

Implementation plan:

Seek support from our technical and financial partners (ILO / DECP / large agricultural sector companies) to carry out the action started in 2021

Impact:

Lack of awareness of labour legislation in the agricultural sector can promote or wipe out efforts over many years. Raising the awareness of companies in the sector to join the platform on child labour, if possible. Encouraging action in this key sector of the Benin economy.
