ORGANIZATION

Autonomous Workers’ Confederation of Peru
(Central Autónoma de Trabajadores del Perú – CATP), Peru
pledges to

Contribute to the prevention and eradication of youth labour and protection of adolescent workers
Contribute to the prevention and eradication of youth labour and protection of adolescent workers

**Name:**
CATP trade union grassroots trained for action: Prevention and eradication of child labour and protection of youth labour.

**Description:**
To implement the resolutions adopted at the 4th Congress of the CATP in September 2019 to contribute to the prevention and eradication of youth labour and protection of adolescent workers, generating organizational bodies that contribute to the fulfilment of Target 8.7 of the 2030 Agenda in the territories from a trade union perspective, through real-time and own-pace training of trade union representatives belonging to the Confederation at regional and local level.

**Implementation plan:**
- Identify CATP trade union representatives in each of Peru's regions and municipalities.
- Survey of the actions carried out by CATP trade union grassroots.
- Develop a bank of materials for training of trainers.
- Capacity building for CATP's regional and local trade union sector through a training of trainers programme providing theoretical and methodological tools to promote a comprehensive approach to the prevention and eradication of child labour and the protection of youth labour.
- Promote trade union proposals and actions aimed at developing strategies to prevent and eradicate child labour and protect youth labour in their local area and/or region.
- Accredit trade union representatives (child labour) to take part in social dialogue spaces at national, regional and/or local level.

**Impact:**
Articulating the trade union organizations that belong to the CATP to influence institutional spheres (national, regional and/or local) with a view to achieving the implementation of public policies and strengthening their participation in spaces for social dialogue.
