

## ORGANIZATION

Argentinean trade union confederations (CGTRA, CTA-T, CTA-A), Argentina  
pledge to

**Develop a two-level training of trainers  
programme for the local trade union sector**

## **Develop a two-level training of trainers programme for the local trade union sector**

### **Name:**

Trade Union Contributions to the Prevention and Eradication of Child Labour and Protection of Youth Labour.

### **Description:**

To develop a two-level training of trainers programme for the local trade union sector, providing theoretical and methodological tools to promote a comprehensive approach to the prevention and eradication of child labour and the protection of youth labour, and to promote trade union proposals and actions aimed at developing strategies for institutional coordination, with multi-sectoral participation, to prevent and eradicate child labour and protect youth labour in their local areas.

### **Implementation plan:**

- Engage the national leaderships of the three trade union confederations.
- Convene the territorial trade union representatives of the Argentinean provinces and the Autonomous City of Buenos Aires for the training programme.
- Draw up the list of participants in the activity with input from territorial representatives.
- Develop a provisional programme, with main themes, bibliography and methodology.
- Enrol participants in Levels 1 and 2 (Level 1 conceptual, Level 2 operational).
- Set up the working groups on the basis of diversity of trade union membership and territorial distribution.
- Designate group coordinators.
- Define working method.
- Determine criteria for monitoring, results and evaluation.

### **Impact:**

The training for action of territorial trade union representatives from different sectors, with a single and coherent concept and operational decentralization, will contribute to organization at the local level and to strengthening actions through the promotion and support of public policies for the eradication of child labour.
