# **Creation of a Network of Companies committed to fighting child labour in Côte d'Ivoire**

## **Creation of a Network of Companies committed to fighting child labour in Côte d'Ivoire**

### **Name:**

Creation of a Network of Companies committed to fighting child labour in Côte d'Ivoire

### **Description:**

The Confédération Générale des Entreprises de Côte d'Ivoire is the most representative employers' organization with 3500 member companies, including member companies in the agricultural and gold sectors. They conduct initiatives to combat child labour. The Network will create collaboration and the sharing of knowledge and experiences between companies. The Network will allow the CGECI to ensure better dialogue with its enterprises and contribute more effectively to the mechanism monitoring the application of ILO conventions and recommendations.

### **Implementation plan:**

Our pledge will embody the implementation of the ACCEL AFRICA project to which our organization will submit a bid for a project on capacity building of member organizations and companies. There are 6 professional groupings and their member companies in the agricultural sector, particularly cocoa and gold.

### **Impact:**

Our pledge will contribute to strengthening due diligence in the supply chains of member companies in the professional groupings and will also allow the sharing of knowledge and good practices as well as boosting dialogue and the reporting system.
