Raise awareness of child labour

Raise awareness of child labour

Name:

Creating Awareness of Child Labour

Description:

We will heighten the awareness of child labour where it is occurring to motivate the reader to take action by learning more. We will also call on governments to end this practice by implementing the Universal Child Benefits or ILO R 202 5 (b) basic income security for children, at least at a nationally defined minimum level, to provide access to nutrition, education, care, and any other necessary goods and services.

Implementation plan:

We will post an article on child labour in different countries around the world each month.

Impact:

We will bring attention to the hidden places where child labour happens on a daily basis.
