CORPORACIÓN JUÉGATELA, CHILE

Restore schooling for children engaged in child labour

Name:

Restore schooling for children engaged in child labour.

Description:

Restore the education of children, adolescents and young people living in the San Joaquín commune of the Metropolitan Region that have dropped out of the school system due to child labour.

Implementation plan:

Identify children and adolescents involved in child labour and not in the school system. Re-educate people about child labour through social and education professionals and publicize support networks.

Impact:

We will re-educate children and youth and their families about the different programmes and support networks run by organizations that work in the area. These actions are carried out by our social and educational professionals.
