pledges to

**Raise awareness through an exhibition on
mining labourers**

Raise awareness through an exhibition on mining labourers

Name:

Exhibition on mining labourers (guajes mineros)

Description:

Based on the Fundación Obra Social Montepío's commitment to mining history, our aim with the exhibition #guajesMineros is not only to honour the memory of mining labourers and shed light on a part of this industrial history, but also to raise awareness among new generations, in an intergenerational dialogue (grandchildren with grandparents) that is both feasible and necessary about this legacy and the importance of combating and reporting child exploitation in any form, upholding education, play, health and protection as fundamental elements in children and young people's education.

Implementation plan:

Itinerant exhibition with the following itinerary in Asturias in 2021:

- [Museo Valey de Castrillón, Asturias](#)
- [Museo Historia Urbana de Avilés](#)
- [Espacio Cultural Liceo, Navia \(Asturias\)](#)

Impact:

By joining the platform, the Fundación Montepío aims to raise awareness among new generations of the importance of combating and reporting child exploitation in all its forms in an intergenerational dialogue that is both feasible and necessary about our legacy and the importance of combating and reporting child exploitation in any form.
