pledges to

Establish a Committee to Eliminate Child Labour to support the provision of training and awareness programmes for business communities in ending child labour

Establish a Committee to Eliminate Child Labour to support the provision of training and awareness programmes for business communities in ending child labour

Name:

Improved responsible business conduct, with an aim to eliminate child labour in Fiji's business practices.

Description:

A Committee to Eliminate Child Labour will be established at FCEF to support the provision of training and awareness programmes for business communities in ending child labour, forced labour, and human trafficking in global supply chains, specifically targeting FCEF Members and the Informal business sector.

Implementation plan:

A Committee that will be established to Eliminate Child Labour, is tasked to oversee FCEF's 2021 Action Pledge. This will include the following activities:

- Conduct 5 seminars before the end of 2021;
- Targeting the following Councils at FCEF:
 - Manufacturing Council (targeting 20-25 businesses);
 - Retailer's Council (targeting 20-25 businesses);
 - Women Entrepreneur Business Council (targeting 20-25 businesses);
 - Young Entrepreneur Council (targeting 20-25 businesses);
- FCEF will host one Informal Sector Seminar as well, targeting 20-25 MSMEs.

A report on the Seminars/training will be compiled and shared with partners. We will also contribute the message to share stories and articles through the local Newspaper.

Impact:

In the seminars, FCEF members will learn about how to design policies and processes to prevent child labour in the supply chain, as well as how to overcome certain obstacles when reviewing the supply chain. All the activities, including seminars and awareness raising events will be advertised through FCEF's website (www.fcef.com.fj) and social media platforms (Facebook and Twitter).
