FIJI NATIONAL UNIVERSITY, FIJI

Protect children's rights and helping eliminate child labour through its Child Labour Statement

Name:

Fiji National University Child Labour Action Pledge

Description:

Fiji National University is committed to protecting children's rights and helping eliminate child labour through its Child Labour Statement.

Implementation plan:

Through its suppliers and contractors, FNU is a major contributor to Fiji's national economy. Many hundreds of people are employed by companies working for FNU, in construction, catering, cleaning, landscaping, security and other sectors that traditionally rely on casual workers and young people leaving formal education. FNU's Child Labour Statement will ensure that companies contracting with the University undertake not to employ any child unless on an approved industrial attachment with appropriate supervision.

Impact:

By implementing the Action Pledge, the university intends to learn the best possible ways of preventing child labour in the companies that are currently working for the university.
