

## ORGANIZATION

Fiji Trades Union Congress, Fiji  
pledges to

**Make Fijian workplaces free of  
child labour**

## **Make Fijian workplaces free of child labour**

### **Name:**

Making Fijian workplaces free of child labour

### **Description:**

Workplaces in the informal sector tend to engage child labour for various reasons. Through this pledge we will identify such workplaces and conduct programs to eliminate the use of children as labourers and to ensure children are protected as required by the labour if they are engaged lawfully. Child labor must be utilised in such precarious sectors as construction, agriculture, maritime and intense manufacturing.

### **Implementation plan:**

- identify workplaces that engage children's for employment and develop a list of such employment in the identified zone/division
- conduct awareness sessions on national labor law on the employment of child and ILO Conventions ratified on Child Labour.
- explore and develop strict mechanisms for stakeholder involvement for enforcement of such laws
- Partner with relevant stakeholders including the ILO.

### **Impact:**

Workplaces will be deterred from engaging in child labour by being aware of the national labour laws and the role of unions at workplaces in monitoring.
