**Preserve childhood and children's rights
in Brazil**

Preserve childhood and children's rights in Brazil

Name:

Ending Child Labour

Description:

BRK is a signatory to the United Nations Global Compact and, as the largest private basic sanitation company in the country, it is committed to childhood and the preservation of children's rights in the country.

The company has a rigorous procedure for contracting suppliers, which includes performing due diligence to ensure that human rights are preserved in the value chain. In addition to the positive impacts of the sanitation service provided by the company, the company develops human rights diagnoses and due diligence in its areas of activity and develops social work projects that include education, environmental preservation, and social development initiatives, focused on the development of local communities, thus favouring the opportunities and quality of life for children in these localities.

Implementation plan:

The company will continue to develop socio-environmental initiatives in the communities in which it operates, and will constantly review its process of contracting suppliers to ensure that the commitment is achieved.

Impact:

BRK expects to learn from other members how best to prevent child labour in supply chains and how to overcome certain obstacles when reviewing supply chains.
