

INTERNATIONAL YEAR  
FOR THE ELIMINATION  
OF CHILD LABOUR

## ORGANIZATION

Group Development Pakistan, Pakistan  
pledges to

**End child domestic labour  
in Pakistan**

## End child domestic labour in Pakistan

### **Name:**

Ending child domestic labour in Pakistan

### **Description:**

We tend to protect and promote child rights in Pakistan including Child domestic labourers. The organization has undertaken a project to counter child domestic labour in Pakistan and to protect and promote their rights as per the rule of the land and international standards. We have planned to target the demand and supply side of this black market at the structural, institutional, and community levels. We also tend to initiate a campaign, the "Green-Flag campaign" (community-based positive pressure campaign) where communities will install flags on their roof-tops to demonstrate child-domestic-labour-free houses. This idea will generate positive pressure on others to do the same.

### **Implementation plan:**

The above-mentioned activities will be undertaken by using the child participatory approach and by taking all the stakeholders on board especially the state actors to ensure the smooth flow of activities. The focus is on eliminating the demand for child domestic labor therefore, support from state actors, community mobilization, and awareness is the key.

### **Impact:**

1. Enacting and implementation of the state laws and international standards
2. Raising awareness at the community level
3. Sharing the best practices and lessons learned inter and intra-organization
