Intercommunal forum to combat child labour in the context of Covid-19

ITODJU, BENIN

Intercommunal forum to combat child labour in the context of Covid-19

Name:

Intercommunal forum to combat child labour in the context of Covid-19

Description:

The issue is identifying local stakeholders, community leaders, religious leaders and heads of decentralized departments in the state, presenting our action pledge to them and having them lead a day of reflection on child labour in the current context. They are the main beneficiaries as well as youth associations, women, and workers' and private sector representatives.

We would like to discuss child labour with them in target communes and what can be done in each of these communes to effectively fight child labour.

Implementation plan:

Through the mobilization of local stakeholders, community leaders, dignitaries and the organization of an intercommunal forum on the fight against child labour in the context of Covid-19.

Impact:

By organizing the forum on child labour, ITODJU hopes to learn from other members how to prevent child labour in supply chains and how to overcome particular obstacles when monitoring this. ITODJU also hopes to benefit from stakeholders and their experience in fighting child labour locally.
