

## ORGANIZATION

MANGO, Spain  
pledges to

**Promote due diligence and awareness  
of Child Labour throughout MANGO's  
supply chain**

MANGO, SPAIN

## **Promote due diligence and awareness of Child Labour throughout MANGO's supply chain**

### **Name:**

Promote due diligence and awareness of Child Labour throughout MANGO's supply chain.

### **Description:**

We will develop an action plan in our supply chain on due diligence in order to promote the best practices that contribute to the eradication of Child Labour.

### **Implementation plan:**

- Identify the geographical areas with the highest risk of Child Labour in the fashion sector (through the development of a Risk Map of our supply chain).
- Carry out training and/or awareness actions related to Child Labour with our partners in the supply chain (CCOO of Industry, Member of Alliance 8.7) in the countries detected with a high risk of Child Labour, according to the Risk Map mentioned above.
- Carry out an educational programme focused on the reduction of child poverty in one of the countries in our supply chain (to be determined).

### **Impact:**

We will identify risks related to Child Labour throughout our supply chain. The objective will be to publicly share this Risk Map which will contribute to raising awareness within the industry that Child Labour is currently still a latent risk.
