Help bring an end to child labour

MASTER OLADSEG INITIATIVE, NIGERIA

Help bring an end to child labour

Name:

Bringing an End to Child Labour

Description:

We'll ensure we bring the vulnerable children back to school. Education remains the best and most effective way to stop child labour.

Implementation plan:

- Partner with the public and private sector to source fundings to support the vulnerable.
- Go to the streets and support their education.
- Organise free vocational training for students and children.

Impact:

Education is the best tool to deploy in other to end Child Labour. Children will either be taken back to school or trained for vocational skill; in both cases, it will surely end child labour in our communities.
