

GOVERNMENT

The Department of Labour, Antigua and Barbuda
pledges to

End child labour in Antigua & Barbuda

End child labour in Antigua & Barbuda

Name:

Ending Child Labour in Antigua & Barbuda "Lets Protect our Future"

Description:

There is no empirical evidence that child labour exists in Antigua and Barbuda. Therefore we intend to set up a task force made up of representatives from the Labour Department, Ministry of Education, Ministry of Social Transportation, Ministry of Youth and some NGOs. The task force will seek to conduct a survey to determine whether such instances exist.

Implementation plan:

The task force will meet, develop an instrument and conduct the survey shortly thereafter.

Impact:

Having discovered that there are instances of child labour, we will seek to remove them from the workforce, provide them with education and training and integrate them into a stable home environment.
