Morgan Sindall Group, United Kingdom of Great Britain and Northern Ireland
pledges to

**Eradicate any instances of child labour
within its supply chain**

MORGAN SINDALL GROUP, UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND

Eradicate any instances of child labour within its supply chain

Name:

Morgan Sindall - safeguarding the supply chain

Description:

We will aim at eradicating any instances of child labour within our supply chain by continuously heat mapping our sources of labour and materials, sharing our findings and working with others to communicate how best we can remove improper practices.

Implementation plan:

We will heat map our supply chain, identify areas of risk via external audit, seek evidence, and then communicate the findings in an effort to stop any bad practices.

Impact:

This will hopefully reduce the demand for these products and it will stop the exploitation.
