

INTERNATIONAL YEAR
FOR THE ELIMINATION
OF CHILD LABOUR

ORGANIZATION

SHAPLA NEER, Japan
pledges to

Protect children's future

SHAPLA NEER, JAPAN

Protect children's future

Name:

Protect children's future

Description:

SHAPLA NEER will contribute to eliminating child labour through encouraging vulnerable households not to let their children work, lobbying the government to enact a law for working children, and supporting people involved in child labour in our working country Bangladesh and Nepal.

Implementation plan:

- Strengthen the capacity of local government to protect child rights through the capacity development of stakeholders (Nepal).
- Encourage vulnerable households not to let their children work (Nepal)
- Manage HELP Centers which are run for girl domestic workers to provide the necessary support (Bangladesh).
- Lobby Bangladesh government to enact the law for the protection of the rights of domestic workers (Bangladesh)
- We will also involve Japanese citizens in the child labour elimination movement by sharing our experiences with them.

Impact:

Child labour in the informal sector is often invisible and difficult to quantify. In order not to leave out child labour in the informal sector, SHAPLA NEER will support children and families in the midst of child labour, change the mindset of the local residents, governments, and local administrations, and raise protection capacities of children and their rights.
