

INTERNATIONAL YEAR
FOR THE ELIMINATION
OF CHILD LABOUR

ORGANIZATION

SOWLIGHT RESOURCES LTD, Nigeria
pledges to

**End child labour in Nigeria and
African countries**

End child labour in Nigeria and African countries

Name:

Ending child labour in Nigeria and African countries

Description:

We plan to collaborate with other organisations to put an end to child labour, including child marriage and other sorts of conditions contrary to children's normal development. We will develop and use a variety of tools to accomplish this goal such as technological solutions, skills related to social work, community mobilisation, awareness raising, public education, policy formulation, and empowerment

Implementation plan:

We will implement this plan by meeting the stakeholders, working with organizations that are into children services and protection, creating awareness to stop child labour, collaborating with other organizations to develop policy and lobbying for its passage and enactment, and creating empowerment opportunities for women to reduce or eradicate child labour in the communities and villages. We will follow the guidance of the International Labour Organization, and collaborate with the mandated Health Empowerment initiative, and other academic organizations to collaborate with them and learn from them how to achieve the set goals.

Impact:

Our work will create empowerment opportunities for women to reduce and eventually eradicate child labour in the communities and villages
