pledges to

**Take necessary actions to address
Child Labour in the supply chain in 2021**

Take necessary actions to address Child Labour in the supply chain in 2021

Name:

Turkcell's Pledge on Ending Child Labour

Description:

As stated in Turkcell Human Rights Policy, child labour, which is described as dangerous and harmful work for children in terms of mental, physical, social, or moral aspects, and any form of employment that abuses and harms children by depriving them of education is forbidden either in our Company's own business processes or in its supply chain.

Within this concept, Turkcell is planning to take necessary actions in the supply chain in 2021, and also is planning to give in-house training to employees. With these actions, we believe that we are going to raise awareness about child labour and contribute to the action plan of Ending Child Labour by transforming our supply chain management system.

Implementation plan:

Turkcell will implement the 2021 Action Pledge by designing in-house training, by revising supply chain contracts (if needed).

Impact:

By joining the Child Labour Platform, Turkcell expects to learn from other members how best to prevent child labour in supply chains and how to overcome certain obstacles when reviewing supply chains. With the help of this information, Turkcell will design its supply chain mechanisms related to child labour.
