**Raise awareness for employers on
child labour**

Raise awareness for employers on child labour

Name:

Awareness raising for employers on child labour

Description:

Awareness raising and training for employers on the prevention of child labour

Implementation plan:

1. Organize a national level business forum/dialogue involvings SMEs as well as big brands on labor issues (including child labor) (in coordination with Ministry of Labour, Invalids and Social Affairs)
2. Organise training workshops for employers on the prevention of child labour in the workplace, and propagate a Guide for employers which is originally based on the ILO/IOE Guide on Eliminating Child labour by adapting it to suit the reality of Vietnam as well as a code of conduct for employers on the prevention and elimination of all kinds of child labour in the sectors of garment and footwear, seafood processing, stone/wood craving, and traditional handicrafts (weaving, sedge and embroidery)

Impact:

- Businesses operating in Vietnam are supported with a view to prevent and reduce child labour in both their production and business activities in the supply chain in which they participate
- Child labour issues will be propagated widely in businesses and the community to spread awareness of how to prevent child labor
