

## ORGANIZATION

WORLD VISION DEVELOPMENT FOUNDATION, INC., Philippines  
pledges to

**Continue the fight to end child labour  
in the Philippines**

## Continue the fight to end child labour in the Philippines

**Name:**

World Vision Pledge to continue the fight to end child labour in the Philippines

**Description:**

World Vision pledges to continue the fight to end child labour in the Philippines by:

- Providing educational services for children involved in or transitioning from child labour
- Advocating for increased community support for education
- Providing livelihood support for families at risk of or engaged in child labour
- Advocating with national and local governments to strengthen policies and service delivery to promote education and protection of children from child labour
- Building the resilience and life skills of children and youth to know the risks of hazardous work

**Implementation plan:**

World Vision will continue to implement our 2021 Action Pledge by deepening our commitment to the most vulnerable boys and girls, collaborating and advocating to broaden our impact, and delivering high-quality, sustainable funding to the field.

**Impact:**

By joining forces with members of the Alliance 8.7 and the National Council Against Child Labour, World Vision can support efforts to strengthen the government's capacity and private stakeholder partners in addressing the worst forms of child labour, including online sexual exploitation and violations of acceptable conditions of work.
